1. Please note that the use of the public address system is restricted to 12:45 p.m. to 2:00 p.m. and the volume generated should be kept at a reasonable level, i.e. at a level that the broadcast should only be heard within the area of the counter.

2. The backdrop, if any, should be 2.2m height and width not exceeding width of the counter, with one dimension only.

3. The display boards, tables and other materials must be placed within the approved area and must not block the nearby facilities for persons with a disability such as the tactile guide paths (失明人士引導徑) and handrails.
