The project is supported by Yang Tuck Ming & Wong Fung Ying Service Learning Fund and Common Core Leadership and Impact Award.

Imagine this:

*A slipping mind. Broken future. Forgotten cultures.
And you? You're not a victim. You're the last hope.*

G17 Hong Kong invites you to HKU's most immersive escape room:

Escape Room – SDG Survival Challenges

3 zones. 3 global crises. 30 minutes per zone to reverse the despair.

No textbooks. No exams. Just you, your team, and a shared mission.

Event details:

Date: 20–22 June (Sat–Mon)

Time: 10:30am – 6pm (30-min per zone)

Venue: HKU Main Building

Price: \$100 for **ALL** 3 zones

What you'll face:

Zone 1 – Breaking Point 臨崖之心 (Mental Health)

As pressure closes in, your thoughts begin to spiral and reality feels harder to hold onto. Something important has been lost—scattered across fragments you must recover before time runs out.

Zone 2 – Second Chance 終極試煉 (Environmental)

The Earth is Gone.

Poisoned skies, silent seas and fading humanity — you wake in a future you forged.

You have been chosen to witness the end... and to decide whether humanity deserves a second chance.

To return to your own time, you must prove that you can change.

Can you fix the past... before it's too late?

Zone 3 – The Hidden Cultures 文化秘境 (Cultural Integration)

Journey across Ethiopia, Sámi and Māori traditions to restore balance between Earth, Water and Wood. Solve ancient puzzles, chant with rivers, and weave identity together before time runs out — only then will harmony be unlocked.

How it works:

- Come solo or bring 2–5 friends – we'll build your team
- Step into a chaos brought to life with puzzles, props, and storytelling
- Crack challenges based on real UN goals – and watch the world regain color

Why join?

Because saving the world is better with friends. And because 30 minutes of escape can change your whole day.
