ABOUT EWBHK & GCP

Empowering future changemakers through engineering, service and global citizenship.

About EWB-HK

Since 2008, EWB-HK has been recognized as a charitable organization. Our missions are twofold:

- (1) To accelerate the improvement of life in disadvantaged communities and promote sustainable development through engineering solutions;
- (2) To enhance the capacity of Hong Kong's professionals and future generations to contribute to communities in need.

ENGINEERING | PEOPLE | IMPACT

About GCP

The EWB Global Citizenship Programme (GCP) is a flagship initiative of Engineers Without Borders Hong Kong (EWB-HK) that aims to cultivate a global perspective among university students by engaging them in understanding diverse, people-oriented global challenges. The programme offers interactive platforms for students to explore pressing global and local sustainability issues, develop changemaking skill sets, and participate in service projects.

LEARN | SERVE | EXPLORE | GROW

PROGRAMME PURPOSES

- 1 Understand Sustainability**
Explore local and global issues.
- 2 Build Global Citizenship**
Cultivate awareness and responsibility.
- 3 Grow as a Future Leader**
Learn, reflect, and prepare for leadership.
- 4 Connect with Like-minded Peers**
Build networks for change.
- 5 Serve with Technology & Engineering**
Support communities through action.

Participant Feedback

REAL EXPERIENCES. LASTING IMPACT.

“GCP gave space, time, and commitment to understanding global issues and local issues with a clear mind.”
– GCP Students

“This programme lets me meet some kind people, I feel touching, everyone is helping the world.”
– GCP Students

“GCP brought comprehensive personal and academic growth to me. All training and field practices have laid a solid foundation for my future engineering-based community innovation projects, making this programme an extremely valuable learning journey.”
– GCP Students

GCP27 JOURNEY

From Hong Kong to Malaysia, GCP27 is a journey of learning action, and growth

Foundations & Systems

Build knowledge, skills and a global mindset.

Learn from practitioners and experts, develop key skills, and connect with the EWB movement to understand global challenges and systems thinking.

Sustainability Themes

Explore real-world challenges for a more sustainable future.

Gain insights into key sustainability issues, including environment, social inclusion, and sustainable economy, and explore solutions through real-world cases and site visits.

Service & Action

Turn compassion into meaningful action.

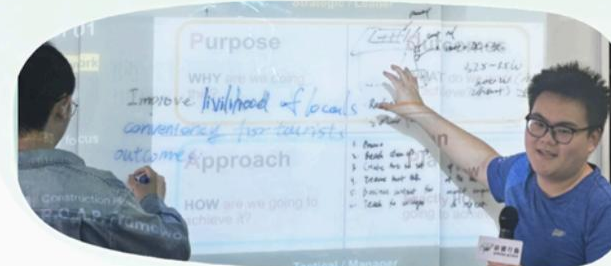

Work with local communities, apply your knowledge and skills to real projects, and contribute to positive and lasting impact.

Storytelling & Leadership

Share stories. Inspire change.

Communicate your experiences, exchange with like-minded peers, and develop your leadership to be a future changemaker.

Global Experience

Broaden your horizons. Be a global citizen.

Experience a learning trip to Malaysia, engage in cross-cultural exchange, and network with overseas organizations to see the bigger picture.

PROGRAMME TIMELINE

Note: Workshops will be arranged in weekday night / weekend. Outing activities will be arranged in the weekend.

STAGE 1: BUILD UP

Training Sessions & Workshops

STAGE 2: EXPERIENTIAL LEARNING & EXPLORATION

Local Community Service
Overseas Community Service & EXP Learning

STAGE 3: EVALUATION & IDEATION

Jan – Feb 2027
