

Dear Students,

Hong Kong culture is very different from that of other countries in many aspects. It is very common for non-local students to experience Culture Shock while studying in Hong Kong.

CEDARS-Campus Life Section is going to organize an online Culture Shock Challenge with [our Global Friends Programme \(GFP\)](#) Student Ambassadors. The GFP-Culture Shock Challenge is an online game for students to discover cultural differences between local and non-local students, and most importantly to understand Hong Kong culture.

The Culture Shock Challenge is filled with fun icebreaker games where you can meet friends from around the world. By guessing the most popular responses to the Culture Shock Challenge Survey we have conducted earlier on, you will have a chance to win [amazing prizes](#). Every participant will also receive a special gift prepared by CEDARS.
