

**REGULATIONS FOR THE DOUBLE DEGREE OF  
BACHELOR OF ARTS (BA) AND  
BACHELOR OF EDUCATION IN LANGUAGE EDUCATION (BEd[LangEd])**

*These regulations apply to students admitted to the 5-year Bachelor of Arts and Bachelor of Education in Language Education (BA&BEd[LangEd]) double degree curriculum in the academic year 2021-22 and thereafter.*

*See also General Regulations and Regulations for First Degree Curricula.*

The degrees of Bachelor of Arts and Bachelor of Education in Language Education (BA&BEd[LangEd]) are awarded for the satisfactory completion, on a full-time basis, in one of the following prescribed programmes:

1. Major in Chinese Language, Literature and Culture and Professional Core (Chinese Language Education);
  2. Major in English Language and Linguistics and Professional Core (English Language Education).
- 

**AED1 Admission to the degrees**

To be eligible for admission to the degrees of Bachelor of Arts and Bachelor of Education in Language Education, candidates shall

- (a) comply with the General Regulations;
  - (b) comply with the Regulations for First Degree Curricula; and
  - (c) satisfy all the requirements of the curriculum in accordance with these regulations and the syllabuses.
- 

**AED2 Period of study**

The curriculum for the degrees of Bachelor of Arts and Bachelor of Education in Language Education shall normally require ten semesters of full-time study and a summer semester, extending over not fewer than five academic years, and shall include any assessment to be held during and/or at the end of each semester. Candidates shall not in any case be permitted to extend their studies beyond the maximum period of registration of eight academic years, unless otherwise permitted or required by the Board of Studies in Bachelor of Arts and Bachelor of Education in Language Education.

---

**AED3 Selection of courses**

- (a) Candidates shall select their courses in accordance with these regulations and the guidelines specified in the syllabuses before the beginning of each semester. Changes to the selection of courses may be made only during the add/drop period of the semester in which the course begins, and such changes shall not be recorded on the transcript of the candidate. Requests for changes after the designated add/drop period of the semester shall not normally be considered.
  - (b) Withdrawal from courses beyond the designated add/drop period will not be permitted, except for medical reasons approved by the Board of Studies.
- 

**AED4 Curriculum requirements**

- (a) To complete the curriculum, candidates shall follow instruction in the syllabuses prescribed and
  - (i) satisfy the requirements prescribed in UG5 of the Regulations for First Degree Curricula;
  - (ii) complete successfully not fewer than 300 credits in the manner specified in these

regulations and the syllabuses in one of the following prescribed programmes:

## **AED5    Advanced standing and credit transfer**

---

<sup>1</sup> This integrated capstone experience fulfills the requirements for both BA and BEd(LangEd) degree curricula.

<sup>2</sup> Candidates who have achieved Level 5 or above in English Language in the Hong Kong Diploma of Secondary Education Examination, or equivalent, are exempted from this requirement, and Core University English is optional. Those who do not take this course should take an elective course in lieu, see Regulation UG 6.

<sup>3</sup> Candidates who have not studied the Chinese language during their secondary education or who have not attained the requisite level of competence in the Chinese language to take CEDU9002 may apply for exemption and take a credit-bearing Cantonese or Putonghua language course offered by the School of Chinese (especially for international and exchange students) or take an elective in lieu. Candidates from the Mainland shall take CUND9002 Practical Chinese and Hong Kong Society or CUND9003 Cantonese for Non-Cantonese Speaking Students.

<sup>4</sup> Language Proficiency Assessment for Teachers (English Language) of the Hong Kong Examinations and Assessment Authority (HKEAA).

- (a) Advanced standing may be granted to candidates in recognition of studies completed successfully in an approved institution of higher education elsewhere in accordance with UG2 of the Regulations for First Degree Curricula. Credits granted for advanced standing shall not be included in the calculation of the GPA but will be recorded on the transcript of the candidate.
  - (b) Candidates may, with the approval of the Board of Studies, transfer credits for courses completed at other institutions at any time during their candidature. The number of transferred credits will be recorded on the transcript of the candidate, but the results of courses completed at other institutions shall not be included in the calculation of the GPA. The number of credits to be transferred shall not exceed half of the total credits normally required under the degree curricula of the candidates during their candidature at the University.
- 

#### **AED6 Assessment and grades**

- (a) Candidates shall be assessed for each of the courses for which they have registered, and assessment may be conducted in any combination of coursework, written examinations and/or other assessable activities. Only passed courses will earn credits. Grades shall be awarded in accordance with UG8 of the Regulations for First Degree Curricula.
  - (b) Courses in which candidates are given an F grade shall be recorded on the transcript of the candidate, together with the new grade if the candidate is re-examined as a second attempt or retakes the failed course. All failed grades shall be included in calculating the GPA and shall be taken into account for the purposes of determining eligibility for award of the BA and BEd(LangEd) degrees, honours classification and whether a candidate shall be recommended for discontinuation of studies.
  - (c) Candidates shall not be permitted to repeat a course for which they have received a D grade or above for the purpose of upgrading.
  - (d) There shall be no appeal against the results of examinations and all other forms of assessment.
- 

#### **AED7 Absence from examination**

Candidates who are unable, because of illness or other acceptable reason, to be present at the written examination of any course may apply for permission to present themselves at a supplementary examination of the same course to be held before the beginning of the First Semester of the following academic year. Any such application shall be made within two weeks of the first day of the candidate's absence from any examination. Any such supplementary examination shall be part of that academic year's examinations, and the provisions made in these regulations for failure at the first attempt shall apply accordingly.

---

#### **AED8 Retaking / re-examination of failed course(s)**

- (a) Candidates who have failed to satisfy the examiners in course(s), but have
  - completed successfully 36 or more credits in two consecutive semesters (not including the summer semester), except where candidates are not required to take such a number of credits in the two given semesters; and
  - achieved an average Semester GPA of 1.0 or higher for two consecutive semesters (not including the summer semester),shall be required, as specified by the relevant Boards of Examiners:
  - (i) to undergo re-assessment(s)/re-examination(s) in the failed course(s) to be held no later than the end of the following semester (not including the summer semester); or
  - (ii) to re-submit failed coursework, without having to repeat the same course of instruction; or
  - (iii) to repeat the failed course(s) by undergoing instruction and satisfying the assessments; or
  - (iv) for elective course(s), to take another course in lieu and to satisfy the assessment requirements.
- (b) Candidates shall not be permitted to retake a failed course or present themselves for re-examination as a second attempt if they have otherwise satisfied all the requirements stipulated

in these regulations for the award of the BA and BEd(LangEd) degrees.

---

#### **AED9 Failure in re-examination**

- (a) Candidates who have failed to satisfy the examiners at re-assessment(s)/re-examination(s), granted under Regulation AED8, of Professional Core (Chinese Language Education) or Professional Core (English Language Education) course(s) offered by the Faculty of Education shall:
    - (i) if these courses total *not more* than 12 credits, normally be permitted to progress to the following year of study and to present themselves for re-examination, in any prescribed form of examination; or
    - (ii) if these courses total *more* than 12 credits, be recommended for discontinuation of their studies as stipulated under Regulation AED10(d).
  - (b) Candidates who have failed to satisfy the examiners at a supplementary examination, granted under Regulation AED7, shall be permitted to present themselves for re-assessment, in accordance with Regulation AED8, as directed by the Boards of Examiners.
- 

#### **AED10 Discontinuation**

Unless otherwise permitted by the Board of Studies, candidates shall be recommended for discontinuation of their studies, if they have:

- (a) failed to complete successfully 36 or more credits in two consecutive semesters (not including the summer semester), except where candidates are not required to take such a number of credits in the two given semesters; or
  - (b) failed to achieve an average Semester GPA of 1.0 or higher for two consecutive semesters (not including the summer semester); or
  - (c) failed in Professional Practicum in any year; or
  - (d) failed to satisfy the examiners at re-assessment(s)/re-examination(s) of Professional Core (Chinese Language Education) or Professional Core (English Language Education) course(s) offered by the Faculty of Education, granted under Regulation AED8, of more than 12 credits; or
  - (e) exceeded the maximum period of registration specified in Regulation AED2.
- 

#### **AED11 Award of degrees and honours classifications**

- (a) To be eligible for the award of the degrees of Bachelor of Arts and Bachelor of Education in Language Education, candidates shall have successfully completed the curriculum as stipulated under Regulation AED4.
- (b) Honours classifications for the degrees of Bachelor of Arts and Bachelor of Education in Language Education shall be awarded in five divisions: First Class Honours, Second Class Honours Division One, Second Class Honours Division Two, Third Class Honours, and Pass. The classification of honours shall be determined by the Boards of Examiners for the degrees in accordance with the following Graduation GPA scores (GGPA) stipulated in UG9(a) of Regulations for First Degree Curricula, with all courses taken (including failed courses, but not including courses approved by the Senate graded as 'Pass', 'Fail' or 'Distinction') carrying weightings which are proportionate to their credit value:

<i>Class of honours</i>	<i>GGPA range</i>
First Class Honours	3.60 – 4.30
Second Class Honours	(2.40 – 3.59)
Division One	3.00 – 3.59
Division Two	2.40 – 2.99
Third Class Honours	1.70 – 2.39
Pass	1.00 – 1.69

- (c) Honours classification may not be determined solely on the basis of a candidate's Graduation GPA and the Boards of Examiners for the degrees may, at their absolute discretion and with justification, award a higher class of honours to a candidate deemed to have demonstrated meritorious academic achievement but whose Graduation GPA falls below the range stipulated above of the higher classification by not more than 0.1 Grade Point.
  - (d) A list of candidates who have successfully completed all degree requirements shall be posted on Faculty notice boards.
-

## **PROFESSIONAL CORE (CHINESE LANGUAGE EDUCATION) (120 credits)**

(for candidates majoring in Chinese Language, Literature and Culture)

---

The Professional Core (Chinese Language) aims at providing the double degree students with a solid professional training to prepare them as critically aware, responsive and responsible teachers who are both grounded in the theoretical foundations of education and curriculum and well-versed in the practical skills and strategies of teaching professionals in the Chinese language subject. All through the curriculum, a strong emphasis is placed on enabling students to make connections between theory and practice, and between classroom issues and the larger social, cultural, economic and political contexts in which classroom practice is situated.

---

Candidates are required to complete a total of 120 credits in the manner specified below.

---

### **Integrated Courses (24 credits)**

---

#### **Becoming a Teaching Professional**

*Becoming a Teaching Professional* is a two-year, broad-based, foundational component aims at developing and building students' identities and capacities as teaching professionals. There are two parts in the component entitled, *Education in a Globalised Society*, and *Understanding Teaching and Learning*. These courses integrate sociological, psychological and pedagogical perspectives on education to explore a range of educational issues and concepts and core pedagogical theories and practices in their major subject area. During the two-year course, students will critically explore these educational issues, concepts and practices through their own experiences and contextualized scenarios, which have been designed to foster reflection, discussion and collaborative problem solving. To engage students in a wider educational community of practice, students will learn both with peers from their major and with students from other subject majors. These courses provide the groundwork for the Years 3 – 5 pedagogy and educational studies courses.

#### **Year 1**

**BBED1101 Becoming a Teaching Professional: Education in a Globalized Society 1** (6 credits)

**BBED1102 Becoming a Teaching Professional: Education in a Globalized Society 2** (6 credits)

These courses aim to enable students to reflect on their personal motivation to become a teacher and examine their understandings and beliefs about teaching and learning as well as teachers and learners in ever-changing multileveled contexts that range from the classroom to the global level. These courses also seek to develop students' ability to engage in critical discussion of issues and concerns arising from teaching and learning in such multileveled contexts. These issues and concerns include common ones that confront all teachers across the school curriculum as well as specific ones that challenge teachers of a particular disciplinary major. Students will be introduced to and engage with philosophical, historical and sociological theories and perspectives on schooling and society, and pedagogical theories and approaches in students' disciplinary major. These courses include experiential and contextualized learning opportunities for students through observational visits to schools and classrooms.

100% continuous assessment by coursework: there will be a variety of assessment tasks, including presentations, online critiques, response papers, group project reports.

---

#### **Year 2**

**BBED2101 Becoming a Teaching Professional: Understanding Learning and Teaching 1** (6 credits)

**BBED2102 Becoming a Teaching Professional: Understanding Learning and Teaching 2** (6 credits)

These courses build on the understandings and awareness of educational and pedagogical issues and concerns gained in the Year 1 integrated courses and extend and links these to psychological theories and practices of learning, teaching, and child development. These theories are then further linked to the pedagogical realms of teaching and learning, with particular reference to students' disciplinary major and classroom pedagogy. The interconnections amongst the philosophical, sociological, psychological and pedagogical realms are brought to light and critically explored through problem-solving tasks, field experiences, and critical case studies. The course aims to nurture the development of critically-aware, responsive and responsible educators for Hong Kong schools.

100% continuous assessment by coursework: there will be a variety of assessment tasks, including presentations, online critiques, response papers, group project reports.

---

### **Pedagogy Courses (24 credits)**

Candidates are required to complete 24 credits of Pedagogy courses specified below.

---

#### **Year 3**

**BBED3201 Pedagogy I: Becoming a Competent and Reflective Teacher** (6 credits)

This course focuses on the teaching of Chinese Language at the Primary and Junior Secondary stages of schoolings in Hong Kong. This course gives students advanced training in lesson planning. It allows students to develop teaching and classroom management strategies, and to practice some basic approaches to the teaching of the different language skills – listening, speaking, reading writing and thinking. It also explores effective ways to conduct small class teaching. Using Information Technology to engage learning community building, sharing and collaborative reflection will be introduced. Students will also be guided and encouraged to develop their own professional identities through reflective thinking in their learning and teaching.

100% continuous assessment by coursework.

---

#### **Year 4**

**BBED4202 Pedagogy II: Teaching Chinese in Putonghua and Teaching Putonghua as a Subject** (6 credits)

The course will aim at giving students training in using Putonghua as a medium of instruction and also training students in the teaching of Putonghua as a subject in the primary stages of schoolings in Hong Kong. It includes a number of key language classroom skills, such as explanation, questioning, giving instructions, providing corrective feedback and closing remarks in Putonghua. It also equips students with the competency to use Putonghua to teach Chinese by introducing key concepts and practicing a wide range of instructional approaches in teaching Putonghua.

100% continuous assessment by coursework.

---

**BBED4203 Pedagogy III: Becoming a Curriculum Leader** (6 credits)

This course focuses on the teaching Chinese at the Senior Secondary stage of schooling in Hong Kong. Students are encouraged to consolidate their awareness of fundamental teaching skills through close examination of the process and strategies involved in language learning, and of the various approaches used in the teaching of Chinese, particularly in relation to the learning of reading strategies, integrated language skills, and literature appreciation. Meanwhile, the course widens students' vision of the curriculum, in such areas as school-based curriculum development, and curriculum adaptation. Instruction and guidance are also given in the practice of curriculum design and language assessment.

Integrating Information Technology components into school-based curriculum, as well as in Chinese Language curriculum will be introduced. Students are guided and encouraged to develop their own professional identities through innovation in their learning and teaching. The course will also equip students with the ability to conduct research in an area of Chinese language education so as to prepare them to be curriculum leaders.

## **Year 5**

### **BBED5204 Pedagogy IV: Becoming a Teacher with Global Vision (6 credits)**

This advanced course moves from the immediate concerns of classroom practice to broader issues of global education needs. Through learning to teach Chinese Elective Modules of Senior secondary learning stage, students will be guided to concern how to engage with the participatory pedagogy of global education, and how global education can work within language learning and across mainstream curricula. ICT application in promoting cross-cultural collaboration will be introduced. This course enables the students to develop the global dimension in the curriculum, and to build up a global concerns classroom through Chinese language and literature teaching.

100% continuous assessment by coursework.

---

### **Pedagogical Content Knowledge Courses (12 credits)**

The Pedagogical Content Knowledge (PCK) courses, underpinned by sociocultural theories of language and learning, aim at enabling students to bridge their learning in the Chinese Language, Linguistics and Literature major with their learning the Professional Core (Chinese Language Education). The courses are aligned with the content of the Pedagogy courses in the same year and will prepare students for teaching during the Professional Practicum.

---

## **Year 4**

### **BBED4301 PCK I: Learning and Teaching Spoken and Written Discourse (6 credits)**

This course focuses on pedagogical decision-making as it relates to the content of learning. It relates the subject-matter knowledge gained in the Chinese Language, Linguistics and Literature Major to the needs of school students learning Chinese. It introduces students to the importance of being a 'language-aware' teacher, and examines the impact of subject-matter knowledge on pedagogical decisions about the handling of language content. Discourse analysis approaches to language teaching will be introduced.

100% continuous assessment by coursework.

---

## **Year 5**

### **BBED5302 PCK II: Language Learning and Teaching from Psycholinguistic and Sociolinguistic Perspectives (6 credits)**

This course builds on the Year 4 Pedagogical Content Knowledge course, by consolidating students' understanding of the importance of being a 'language-aware' teacher, and extending their language awareness. In this course students will engage with psycholinguistic and sociolinguistic perspectives to understand language development in young learners. Students will also examine research in the field, and its implications for language teaching in Chinese education. The course will equip students to make decisions in relation to their handling of language content, based on a sound knowledge of the language area, understanding of the language processing, the language use, and familiarity with different pedagogical approaches.

100% continuous assessment by coursework.

---

### **Educational Studies Core Courses (18 credits)**

The two courses, BBED3002 and BBED4003, aim to enable students to understand and support students at individual level in primary and secondary school contexts. The course content covers topics mainly related to students with diverse learning needs (1), and guidance and counselling (2).

---

### **Year 3**

#### **BBED3002 Learning Support 1 - Catering for Diverse Learning Needs (6 credits)**

While there are numerous benefits, inclusive schools face many challenges in educating students with diverse learning needs. This focus on inclusive education is an international concern and one that the Hong Kong government has embraced since 1997. Particular emphasis is given to supporting students with different types of disabilities, such as specific learning difficulties, intellectual disabilities, autism spectrum disorder, and ADHD in the context of inclusive schools. The impact of disability on learning will also be examined, and attention will be given to teachers' pedagogical knowledge and classroom management skills in response to students' diverse learning needs in the classroom. Collaborative teamwork with other professionals and family will be emphasized as these contribute to successful student outcomes. Current issues and trends in special education within both international and Hong Kong contexts will be explored.

100% continuous assessment by coursework: assessment tasks will include issue-based problem-solving exercises and an issue paper on each student's topic of interest.

---

### **Year 4**

#### **BBED4001 Social and Philosophical Foundations of Education (6 credits)**

This course examines educational problems from the perspectives of classic and contemporary figures in sociology and philosophy. These two disciplines play complementary roles in clarifying both the conceptual foundations and the empirical assumptions that serve as the foundation of much debate over the means and ends of education. Students will engage deeply with major texts in these two fields and apply them to problems currently facing educators in Hong Kong and the rest of the world.

100% continuous assessment by coursework: the course would employ a range of teaching and learning activities, and assessment tasks. They include analysis of selected issues, student presentation, and/or discussion in class and e-forum.

---

#### **BBED4003 Learning Support 2 - Understanding and Guiding Whole-Person Development (6 credits)**

This course reviews major theories, concepts and research on child and adolescent development and behaviour, and examines ways of guiding, counselling and supporting them in their whole-person development in school settings. The course will explore: (i) major theories of child and adolescent development; (ii) the interdependency of different aspects of development, i.e., physical, cognitive, social-emotional, and peer relationships; (iii) basic concepts and strategies in developmental, preventive and remedial guidance; (iv) the roles of teachers in guidance and counselling; (v) knowledge and strategies in supporting students with mental health issues; and (vi) guiding students on career and life planning.

100% continuous assessment by coursework. The assessment tasks will include issue-based problem-solving exercises and a reflective essay on a self-selected topic which is relevant to the course.

---

## **Educational Studies Elective Courses (6 credits)**

---

### **Year 5**

Candidates are required to complete not fewer than 6 credits from the courses listed below in Year five. Some of the courses listed below may not be offered every year.

#### **BBED5021 Professional Ethics in Teaching (6 credits)**

This elective will enable participants to explore a range of ethical issues which confront them as teachers in teaching, assessment, and evaluation practice. It will draw on ethical theories and professional codes of conduct to enable them to develop an understanding of their professional responsibilities as teachers and identify effective strategies for dealing appropriately with commonly occurring ethical dilemmas. 100% continuous assessment by coursework: the course would employ a range of teaching and learning activities, and assessment tasks. They include analysis of selected issues, student presentation, and/or discussion in class and e-forum.

---

#### **BBED5025 Policy, Improvement, and Leadership in Schools (6 credits)**

This course will investigate the themes of policy, improvement, and leadership in schools (PILS). Students will examine the roles of teachers and administrators in leadership and in the interpretation and enactment of school reform and school improvement policies. Students will also examine the school- and system-level factors necessary for improvement to take place. The course will utilize cases, theory, and empirical research that take on these themes, within and beyond in Hong Kong. With a focus on underserved student populations, PILS equips teachers with a deep understanding of how teachers and teaching are situated in broader aims of improving educational opportunity. 100% continuous assessment by coursework.

---

#### **BBED5026 Diversity, Culture, and Justice in Education (6 credits)**

This course introduces students to asset and equity based frameworks for teaching with social justice as an aim. Students will reflect on their beliefs regarding diversity and culture, and explore their identifications and experiences in relation to categories including gender, socio-economic status, ethnicity, ability/disability, and LGBTI status. Theoretical frameworks that challenge deficit views of minoritized and marginalized communities will be explored, so that students can instead see diversity and culture as resources for reshaping the following: curriculum and pedagogy, interactions with students and families, and teachers' identities. Possible challenges and dilemmas in adopting such frameworks will be discussed. 100% continuous assessment by coursework.

---

#### **BBED5027 Education for Sustainable Development: Schools as Community Centers (6 credits)**

Drawing inspiration from UN Sustainable Development Goals, this course will examine the role of schools to achieve sustainability in local contexts: Education for Sustainable Development (ESD). Students will re-evaluate the current model of development, while envisioning new models of development that sustain not only economy but also cultural diversity, social equality, and natural environment. Students will be invited to examine the relationship between schools and communities. Attention will then be paid on how schools could introduce and implement programmes and projects that cultivate the knowledge, skills and values essential for realizing the goal of sustainable community

development. Students will also deliberate on how the vision of ESD could be integrated into their professional identity.

100% continuous assessment by coursework.

---

## **External Experience (6 credits)**

---

### **Year 2**

#### **BBED2501 External Experience – Chinese (6 credits)**

Students travel outside Hong Kong to a place where Putonghua is the mother tongue, for a mixture of courses, language immersion, cultural orientation and experience during the summer semester in Year 2; or the equivalent.

100% continuous assessment by coursework: students will be assessed through a variety of tasks set by the host institutions including texts or analyses, essays, projects and presentations.

---

#### **Community-based Professional Practicum (6 credits)**

---

Recognising that learning and experience are inextricably connected, all incoming double degree UG students from 2019-20 are required to successfully fulfill the requirements of at least one Experiential Learning activity through a Community-based Professional Practicum (CPP) project before the start of their fourth year. CPP is based on the premise that teaching and learning cannot only be restricted to classroom settings and teachers-to-be need to critically engage with social and global issues that impact on education including inequality, culture, history, and civic mindedness. All the CPP projects offered each year are aimed at enhancing student teachers' understanding of real-world environments, expanding their capacity to integrate theory and practice and broadening their local and global outlook.

The settings for our CPP projects may be local (Hong Kong), overseas and on the Mainland. All are aimed at pushing our students out of their comfort zones and enabling them to foster skills and values that are relevant to a career in education. These include transferrable skills like creativity, innovation, time management, communication and collaboration, problem solving, critical thinking and leadership. Nearly all our CPP projects include carefully organized input sessions and are taught by colleagues from across the Faculty. Each contains an important reflective component as reflective practice is at the heart of good teaching and learning. Most CPP projects are open to students from different disciplines to foster cross-disciplinary collaboration.

Students are required to undertake 6 credits from a list of education related experiential learning courses (or CPP projects) offered by the Faculty of Education before the start of Year 4. The courses listed below may not necessarily be offered every year, and the number and nature of courses in this pool may change. Other community-based learning opportunities may be disseminated throughout the year by the Faculty Experiential Learning team.

At The University of Hong Kong, we are committed to recognize and develop a number of Communication-intensive (CI) courses (<https://cics.hku.hk/>) that explicitly develop students' communication-related knowledge (understanding of communication as it relates to human interaction), skills (skills in communicating effectively with others, using language and/or other means) and attributes (the attributes of effective communicators). A number of course leaders have already started the journey towards attaining the CI certification.

BBED6787 Ocean Park Experiential Learning Project (6 credits)

BBED6790 Developing Resilient Student Teachers by Nurturing Resilience in Vulnerable Groups in Cambodia (6 credits)

BBED6792	Sustainable Development in Tibet (6 credits)
BBED6794	Fostering 4Cs (Critical Thinking, Creativity, Communication and Collaboration skills) through Engaging STEM/STEAM-related EL Activities (6 credits)
BBED6795	Exploring the Past, Present, and Future of Myanmar (6 credits)
BBED6796	Cultural Heritage and Information in the Field (6 credits)
BBED6797	Youth Mentoring for Social Justice and Inclusion (6 credits)
BBED6798	Design Thinking in Action (6 credits)
BBED6799	Understanding our Communities: Experiential Learning of Place (6 credits)

BBED6801	Nurturing gifted individuals (6 credits)
CAES2001	Nurturing Global Leaders (12 credits)*
CAES2002	Online Digital Storytelling in English (6 credits)

*\* This course can be counted as fulfilling the Community-based Professional Practicum (CPP) requirement and also a 6-credit free elective.*

### **BBED6787 Ocean Park Experiential Learning Project (6 credits)**

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

The course will offer students the chance to undertake experiential learning through extended collaboration with Ocean Park, Hong Kong. By engaging in this project, students will expand their understanding and practice as future education professionals beyond the formal classroom and school context. Students will be assigned to work in groups to a) carry out an observation of guests' interests through needs analysis & b) design pop-up narration offerings for visitors to the Park with a goal of enhancing the in-park guests' experience. The final exhibits may be placed on display for visitors and may be used by Ocean Park staff after the course finishes.

Students will have the chance to work closely with Ocean Park staff from their Discovery and Education team and to contribute their knowledge to the Park's focus on promoting conservation and awareness about endangered species to local school children and visitors (from HK as well as overseas and China). All students who select this course will be mentored by the Ocean Park's Education team and closely supervised under the guidance of faculty members. Students' performance in the course will be evaluated through a variety of means including reports from Ocean Park staff, online reflections, and a multi-media presentation at the end of the project.

100% continuous assessment by coursework. Students from all disciplines and programmes may apply but must be able to commit all meetings and classes.

### **BBED6790 Developing Resilient Student Teachers by Nurturing Resilience in Vulnerable Groups in Cambodia (6 credits)**

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

The course sets out a sustainable relationship with a rural school in Cambodia which houses children impacted by trafficking and poverty. The focus will be on co-constructing a curriculum on resilience for the children there with the teachers and volunteers of the school by adopting a 'train the trainers' model of development. It is found that teachers' resilience enhances job satisfaction and teaching effectiveness, and at the same time, allows teachers to nurture resilience in their own students to cope with the challenges of the 21<sup>st</sup> century. The current program highlights one of the key approaches that contextualizes the knowledge of teachers' resilience in working with the vulnerable group and carefully incorporates Kolb's (2015) learning cycle into the program. Student teachers learn to integrate academic theories and actively experiment through continuous observation, trial-and-error and reflection.

Students will attend classes in the second semester and work in teams to design a curriculum on resilience and implement it during summer in Cambodia.

100% continuous assessment by coursework. Students are expected to attend all sessions and be able to commit to the on-site work in Cambodia in summer.

#### **BBED6792 Sustainable Development in Tibet (6 credits)**

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

Tibet has developed rocketing economic growth in the past two decades at the expenses of the ecosystem and environment. Set against this backdrop, this study tour aims to bridge this gap by creating the platform for our student educators to learn about the socio-economic landscapes of Tibet and to analyze its challenges of turning around and sustaining its development. Our student educators will first learn about the theoretical understanding of sustainable development and its relationship to the socio-economic landscapes of Tibet. Then they will work in cross-disciplinary teams to put their knowledge into practice – putting forward their ideas of raising social awareness and calling for behavioral changes with the consideration of local culture and limitations in the format of 'TED talk' videos and sharing at Tibet University. Through the learning process of knowing about the culture, self and others, students will develop an increased intercultural sensitivity as local and global citizens.

The course together with all input sessions will be organized between June to July and students are required to have full attendance throughout the course.

100% continuous assessment by coursework.

#### **BBED6794 Fostering 4Cs (Critical Thinking, Creativity, Communication and Collaboration skills) through Engaging STEM/STEAM-related EL Activities (6 credits)**

This course will develop not only the participants' knowledge, skills and beliefs of learning and teaching of STEM/STEAM-related context (both in Hong Kong and USA), but also enhance their understanding and mastery of the 21st century (4C) skills, that is Critical Thinking, Creativity, Communication and Collaboration skills, in order to succeed in the information age.

Besides attending HKU lectures, students will be guided to work in pairs or in small groups to: (a) analyse the STEM/STEAM-related curriculum in the contexts of Hong Kong and USA, (b) participate in the Odyssey of the Mind Hong Kong regional tournament in March, (c) collaborate on the development of the 4Cs curriculum materials for teaching to Hong Kong winning school teams who will participate in the Odyssey of the Mind World Finals competition in USA in April, (d) participate in the Odyssey of the Mind World Finals in USA in May. All participants will be supported by the course tutors, their peers and both regional and international collaborators in the Odyssey of the Mind program.

#### **BBED6795 Exploring the Past, Present, and Future of Myanmar (6 credits)**

Myanmar is a changing country, situated between India and China, with a complex and interesting past. Through a partnership with the China Exploration & Research Society (CERS), this course sets out to introduce students to the past, present, and future of Myanmar through direct engagement with its landscapes, cultural heritage, and people. Students will learn the basics of how archaeological theories and methods enable the study of past societies, and they will gain hands-on experience with digital humanities techniques for documenting ancient remains. This allows us to investigate past uses of spaces and objects in the organization and performance of law and politics, a perspective that can help contextualize the present. Students will also observe and participate in traditional crafts production to learn about daily life and economics in the villages of Myanmar. This experience foregrounds a rights-

based comparison of labor conditions and gender dynamics in the present with the past, which we investigate through the objects of the archaeological record. Throughout this interdisciplinary class, students will engage with and interview community members, community leaders, and other stakeholders. Students will consider the role of the law in preserving culture, protecting the environment, and supporting economic opportunities in the community. The class will explore two very different environmental zones of the country that highlight the relationships between landscape and society: the flood plain of the Irrawaddy River, explored while living on a boat, and the resource-rich highlands around Inle Lake. The class culminates with an analysis of the ethics surrounding the roles tourism plays within the modern state of Myanmar and Myanmar's role within the international law framework.

### **BBED6796 Cultural Heritage and Information in the Field (6 credits)**

Archaeologists study past cultures through the careful recording of the surveyed or excavated remains of ancient architecture and artifacts. In this class, students will travel to Armenia to participate in summer fieldwork, where they will be exposed to archaeological theories and methods, the digital humanities, and information management in the field. Students will help with digital data collection and experiment with cutting-edge technology such as drones, 3d scanning, cloud computing, and high-precision GPS. This work is contextualized by a critical evaluation of current issues and ethics in cultural heritage and data sharing. Discussion will also focus on teaching the past and engaging the public in cultural heritage and tourism. Several fieldtrips to local sites will provide broad familiarity with the past in Armenia and the Near East. Pre-trip meetings prepare students for the field and a flexible summer program should enable students with varied schedules to attend.

### **BBED6797 Youth Mentoring for Social Justice and Inclusion (6 credits)**

This course develops the knowledge, skills, beliefs and awareness needed to be an effective youth mentor and advocate of disadvantaged youth, with the aim of addressing social and educational inequality. The course will enhance students' understandings of the social, economic, cultural and political forces influencing the educational experiences of youth. It will also develop their self-efficacy as an agent of social change through an exploration of critical, inclusive pedagogies. The course integrates regular university-based interactive seminars with an experiential learning component in which each participant mentors a secondary learner, supporting and advocating for the learner academically and socially on a regular basis across two semesters. The course readings include literary, popular and academic texts to enable youth mentors' reflection upon their mentoring relationships and processes, their own social and ideological positions, and their developing identities as community youth mentors. Participants will receive continuous support and guidance from the course tutor and from peers.

100% continuous assessment by coursework.

### **BBED6798 Design Thinking in Action (6 credits)**

65% of children studying primary schools today will ultimately work in jobs that currently have not yet existed (WEF report 2016). The complex and unpredictable future has created challenges for nurturing student educators for the 21<sup>st</sup> century. Collaborate with the PolyU Jockey Club 'Operation SoInno', this course aims to nurture social innovative and reflective student educators who can find solutions to real-world problems and generate innovative ideas to create a better future. Our student educators will first learn about the theoretical underpinnings of design thinking and the reflective learning cycles in experiential education. Then they will work in cross-disciplinary teams to put their knowledge into practice – facilitating secondary school students' learning process in subject-based design thinking and helping them to reflect upon themselves as active learners. Student educators will integrate social innovation and humanity through the lens of design thinking and develop important 21<sup>st</sup> century skills.

**BBED6799 Understanding our Communities: Experiential Learning of Place (6 credits)**

The possibilities of education should not be confined by classroom walls in the schools. It can take any format of knowledge exchange, at anywhere in society. At the same time, there are much knowledge and experience hidden in the communities. People from various backgrounds can benefit from these kinds of knowledge, when it is recorded and disseminated in well-designed narration and learning activities, catering to the needs of the beneficiaries. A more effective way to share knowledge would be to capitalize on the community. This course aims to explore different possibilities of “learning” and “teaching” from the community. Students in small groups will survey in a local neighbourhood, communicate with a local organization or a target group of their own choice, to understand and record the insider’s knowledge. They will further analyze the knowledge need. Based on the analysis, the students will design an appropriate plan of knowledge sharing and put it into action that will potentially leave a sustainable influence in the community. For example, students can design learning kits targeted at different age groups for museums and heritage sites; transform shared memory and experience of a community into learning materials; design information kits for underprivileged groups according to their knowledge needs in daily social life. Students may design their their projects independently as well. Students will then devlier their service in the community, for example, to organize a guided tour or to present their findings to community members. During the process, students are required to reflect consistently on four aspects, namely, interpersonal communication, community engagement and observation, project design, organization and implementation. The goal of the whole learning process is to transform into the capital for the students themselves.

**BBED6800 CantoGather: Teaching Lower Primary Chinese-as-a-Second-Language Learners Chinese (6 credits)**

While Hong Kong is seen as a “melting pot” of various cultures, social integration remains unsatisfactory. In a study jointly conducted by the Hong Kong Council of Social Service and the Hong Kong Christian Service in 2016, only 64.7% of the surveyed South Asians living in Hong Kong were able to understand spoken Cantonese and 46.4% were able to speak it, while around 9 out of 10 South Asians were unable to read and write Chinese. Even though Chinese is a part of the teaching curriculum in mainstream schools, Chinese-as-a-second-language learners still find it difficult to improve their Chinese language proficiency due to various factors, including limited language exposure and a lack of teaching materials even in schools where they are often designed for teaching Chinese as a second language, thereby matching the mainstream syllabus.

CantoGather aims to empower our non-Chinese neighbours with Cantonese so that they might be better able to integrate into their local communities and step up the social ladder, and in the process promote cultural understanding between tutees and tutors. In this course, students will be teaching a class of 15-20 lower primary NCS students Cantonese through a one-to-one basis each week over 10 weeks. Students will also be modifying the provided activity-based tutoring plans and materials according to the children’s learning needs. At the end of the course, students will produce a lesson plan of their own which will be used by future volunteers. Through this course, students will be able to apply theory into practice and refine their professional skills, while understanding more about local issues and contributing to social immersion and racial integration in Hong Kong.

**BBED6801 Nurturing gifted individuals (6 credits)**

The growing significance of psychosocial factors in talent development has highlighted the importance of addressing the social and emotional needs of gifted individuals in gifted education. Collaborating

with our own CAISE (Centre for Advancement in Inclusive and Special Education), this course aims to develop student educators' awareness on the unique social and emotional needs of gifted individuals and competence to respond to such needs. Student educators will first learn about the social and emotional needs of gifted individuals. Then they will work in cross-disciplinary teams to design and conduct workshops to strengthen the development of this important aspect among gifted individuals at primary school level as well as their parents. On-going feedback and reflection will be provided and facilitated.

### **CAES2001 Nurturing Global Leaders (12 credits)**

*[This course can be counted as fulfilling the Community-based Professional Practicum (CPP) requirement and also a 6-credit free elective.]*

The NGL course provides students with an immersive experience teaching English language and communication skills to marginalized youths in South East Asia for six weeks. Students will reflect on effective English learning strategies and operationalize these into teaching materials and methodologies. Through this unique cultural immersion, participants will gain appreciation for the role that English plays in promoting social and global mobility as they leverage their own language skills and understanding to work in teams and share their knowledge with marginalized youths at community partner organizations.

The NGL programme will consist of two weeks of training in Hong Kong followed by six weeks of internship teaching English to marginalized youths at community partner organizations.

### **CAES2002 Online Digital Storytelling in English (6 credits)**

This course is a unique new approach to experiential learning, giving HKU students an opportunity to support the learning needs of marginalized youth in the developing world. Through this experience, students will improve their own communication skills while empowering others through personal narratives.

Students will learn about a unique seven-stage process to develop personal narratives in the form of Digital Stories. Through this process they will gain a deeper understanding both of the powerful potential impact of storytelling as well as develop a greater understanding of how to integrate different types of media to communicate effectively. As an added dimension, the course is taught entirely online to facilitate personal engagement between students at HKU and learners in the developing world. Both HKU students and the youth they teach will benefit from the opportunity to improve their online communication skills. By working with a range of different online genres students will learn new communication skills (e.g. script writing, using your voice effectively, visual literacy, etc.) as well as technical skills (e.g. audio and video capture techniques, audio and video editing, generating graphics, media management, etc.)

In the first part of the semester students complete a module in which they will generate their own personal narrative in the format of a digital story. Based on this experience, they will then develop relevant online learning support materials and deliver an online digital storytelling workshop for marginalized youth.

### **Professional Practicum (24 credits)**

Professional Practicum is a professional requirement that enables students to develop professional teaching competencies within the school environment. Students are required to integrate theory and practice in four domains: Learning and Teaching, Student Development, School Development and Professional Community. Through two years of *Professional Practicum*, students commit themselves to six core professional values: belief that all students can learn, care for students, respect for diversity, commitment and dedication to the profession, collaboration, sharing and team spirit, passion for continuous learning and excellence.

Because this component is conducted in schools and involves direct learning relationships with school students, the student-teachers must comply with the following professional requirements: Student teachers shall conduct themselves professionally during their studies and towards staff and students in schools or other institutions. Student-teachers who exhibit behaviour deemed by the Faculty of Education to be threatening or harmful to school children, teachers, fellow students, or to schools and other institutions participating in the programme, may not be permitted to take, or may be withdrawn from the *Professional Practicum* courses, and hence will not be able to satisfy the programme's professional requirements.

The core aspects of student-teachers' performance in the practicum that will be assessed include but are not limited to the following:

- planning for effective teaching and learning
  - knowledge of the target language and its acquisition
  - teaching strategies which foster and motivate student learning and meet diverse student needs
  - managing learning and interaction in the classroom
  - professional orientation

**PROFESSIONAL CORE (ENGLISH LANGUAGE EDUCATION) (120 credits)**  
(for candidates majoring in English Language and Linguistics)

---

The Professional Core (English Language) aims at providing the double degree students with a solid professional training to prepare them as critically aware, responsive and responsible teachers who are both grounded in the theoretical foundations of education and curriculum and well-versed in the practical skills and strategies of teaching professionals in the English language subject. All through the curriculum, a strong emphasis is placed on enabling students to make connections between theory and practice, and between classroom issues and the larger social, cultural, economic and political contexts in which classroom practice is situated. In addition, interconnections amongst the professional core and the English Language and Linguistics Major are emphasized.

Candidates are required to complete a total of 120 credits in the manner specified below.

---

**Integrated Courses (24 credits)**

---

**Becoming a Teaching Professional**

*Becoming a Teaching Professional* is a two-year, broad-based, foundational component aims at developing and building students' identities and capacities as teaching professionals. There are two

parts in the component entitled, *Education in a Globalised Society*, and *Understanding Teaching and Learning*. These courses integrate sociological, psychological and pedagogical perspectives on education to explore a range of educational issues and concepts and core pedagogical theories and practices in their major subject area. During the two-year course, students will critically explore these educational issues, concepts and practices through their own experiences and contextualized scenarios, which have been designed to foster reflection, discussion and collaborative problem solving. To engage students in a wider educational community of practice, students will learn both with peers from their major and with students from other subject majors. These courses provide the groundwork for the Years 3 – 5 pedagogy and educational studies courses.

## **Year 1**

**BBED1101 Becoming a Teaching Professional: Education in a Globalized Society 1** (6 credits)

**BBED1102 Becoming a Teaching Professional: Education in a Globalized Society 2** (6 credits)

These courses aim to enable students to reflect on their personal motivation to become a teacher and examine their understandings and beliefs about teaching and learning as well as teachers and learners in ever-changing multileveled contexts that range from the classroom to the global level. These courses also seek to develop students' ability to engage in critical discussion of issues and concerns arising from teaching and learning in such multileveled contexts. These issues and concerns include common ones that confront all teachers across the school curriculum as well as specific ones that challenge teachers of a particular disciplinary major. Students will be introduced to and engage with philosophical, historical and sociological theories and perspectives on schooling and society, and pedagogical theories and approaches in students' disciplinary major. These courses include experiential and contextualized learning opportunities for students through observational visits to schools and classrooms.

100% continuous assessment by coursework: there will be a variety of assessment tasks, including presentations, online critiques, response papers, group project reports.

---

## **Year 2**

**BBED2101 Becoming a Teaching Professional: Understanding Learning and Teaching 1** (6 credits)

**BBED2102 Becoming a Teaching Professional: Understanding Learning and Teaching 2** (6 credits)

These courses build on the understandings and awareness of educational and pedagogical issues and concerns gained in the Year 1 integrated courses and extend and links these to psychological theories and practices of learning, teaching, and child development. These theories are then further linked to the pedagogical realms of teaching and learning, with particular reference to students' disciplinary major and classroom pedagogy. The interconnections amongst the philosophical, sociological, psychological and pedagogical realms are brought to light and critically explored through problem-solving tasks, field experiences, and critical case studies. The course aims to nurture the development of critically-aware, responsive and responsible educators for Hong Kong schools.

100% continuous assessment by coursework: there will be a variety of assessment tasks, including presentations, online critiques, response papers, group project reports.

---

## **Pedagogy Courses (24 credits)**

The Pedagogy courses provide students with knowledge of the interrelations between teaching, learning and assessment in the English language curriculum in Hong Kong primary and secondary schools. Students will explore the types of teacher knowledge and teaching strategies required for effective planning and management of language learning, and effective provision of support to learners in the English language classroom. The courses build upon the Years 1 and 2 pedagogy, sociology and psychology integrated courses, and connect with students' learning in the English Language and

Linguistics Major. The pedagogy courses specifically prepare students for practical teaching during the Professional Practicum.

Candidates are required to complete 24 credits of Pedagogy courses specified below:

---

### **Year 3**

#### **BBED3221 Pedagogy I: Learning and Teaching English in Primary School (Oracy) (6 credits)**

This course focuses on the learning, teaching and assessment of oracy in the English language curriculum in Hong Kong primary schools. The course explores the importance of speaking and listening in early years of learning English as a second language, and the processes involved communicative second language listening and speaking, including the development of phonological awareness, vocabulary and grammar. The needs of young learners in primary classrooms in learning to speak and listen in a second language are examined in relation to key concepts in the teaching of speaking and listening to young learners, such as scaffolding, a language rich environment, and the primacy of meaning and interaction. Within a task-based, integrated skills approach, the pedagogy of selecting, creating and using child-appropriate listening and speaking texts and tasks in the classroom is examined, and formative and summative approaches to the assessment of speaking and listening are considered.

100% continuous assessment by coursework: range of assessment tasks will be used such as text analysis, materials evaluation and classroom task design.

---

### **Year 4**

#### **BBED4222 Pedagogy II: Learning and Teaching English in Primary School (Literacy) (6 credits)**

This course focuses on the learning, teaching and assessment of literacy in English in Hong Kong primary schools. The concept of literacy will encompass both traditional school based literacies and 'new literacies' which address emerging literacy practices involving digital media and popular culture. Students will examine the social and cognitive factors that impact on learners' second language (L2) literacy development, in the early primary years and in the upper primary years. The course explores teaching approaches to early literacy including phonics, spelling, reading strategies, and guided writing. Teaching strategies and approaches for guided and independent reading, process and genre-based writing pedagogies, and task-based reading and writing are also developed. The course examines the components of a balanced literacy approach, the development of whole-school print-rich literacy environments, and awareness of literacy across the curriculum. Formative and summative approaches to the assessment of reading and writing are considered.

100% continuous assessment by coursework: range of assessment tasks will be used such as online discussion forums, materials evaluation and lesson study.

---

#### **BBED4223 Pedagogy III: Learning and Teaching English in Secondary School (Oracy) (6 credits)**

This course focuses on the learning, teaching and assessment of oracy in the English language curriculum in Hong Kong secondary schools. The course explores development of speaking and listening skills in learning English as a second language, and the processes involved in communicative second language listening and speaking, including the development of vocabulary, grammar and discourse competence. The needs of adolescent learners in secondary schools classrooms in learning to speak and listen in a second language are examined in relation to key concepts in the teaching of speaking and listening, encompassing top-down and bottom-up processing, intensive and extensive approaches, accuracy and fluency, interaction, and input-output theories. Within a task-based, integrated skills approach, the pedagogy of selecting, creating and using appropriate listening and speaking texts and tasks in the secondary English classroom is examined, and formative and summative approaches to

the assessment of speaking and listening are considered.

100% continuous assessment by coursework: range of assessment tasks will be used such as online discussion forums, materials evaluation and lesson study.

---

## **Year 5**

### **BBED5224 Pedagogy IV: Learning and Teaching English in Secondary School (Literacy)** (6 credits)

This course focuses on the learning, teaching and assessment of literacy in English in Hong Kong secondary schools. The concept of literacy will encompass traditional reading and writing skills, as well as language arts, popular culture literacies, and academic literacy. Students will examine the social and cognitive factors that impact on learners' second language (L2) literacy development in the lower and senior secondary stages of schooling. The course explores the teaching of reading and writing in a second language, encompassing top-down-bottom-up processing, intensive and extensive approaches, critical reading, process and genre-based writing pedagogies, and text-based and task-based approaches. The course will also focus on materials design and unit development, building students' awareness of recent curriculum changes in the teaching of English (the New Senior Secondary, NSS), and in assessment. Formative and summative approaches to the assessment of reading and writing are considered.

100% continuous assessment by coursework: range of teaching and learning activities and assessment tasks will be used. These may include in-class group presentations, peer appraisal of group microteaching sessions, teaching portfolios and reflective lesson study assignments.

---

### **Pedagogical Content Knowledge Courses (12 credits)**

The Pedagogical Content Knowledge (PCK) courses, underpinned by sociocultural, psycho-cognitive and critical theories of language and learning, aim to enable students to bridge their learning in the English Language and Linguistics Major with their learning in the Educational Professional Core. PCK courses emphasise the importance of being a 'language-aware' teacher, and examine the impact of subject-matter knowledge on pedagogical decisions about the handling of language content. Students draw on and develop their knowledge of the systems of the English language in order to teach the language system of English effectively to learners at different stages of development and in different contexts of learning. The courses are aligned with the content of the Pedagogy courses, and prepare students for teaching during the Professional Practicum.

---

## **Year 4**

### **BBED4321 Pedagogical Content Knowledge for Teaching English in Primary School (6 credits)**

This course enables students to draw upon the subject-matter knowledge gained in the English Language and Linguistics Major to address needs of children learning English as a second language in Hong Kong primary schools. Through an exploration of structural, lexical, and functional approaches to language, students will develop skills in identifying the pronunciation, vocabulary, grammar and discourse demands of spoken and written texts and tasks in the primary English curriculum. Students will examine child-centred pedagogies for developing young children's phonemic awareness and phonics knowledge, and for enabling the processes of noticing, hypothesizing and restructuring of pronunciation, vocabulary, grammar. The course also focuses on the teaching and learning of written and spoken discourse and texts, relevant to young learners and the primary English language curriculum, and the evaluation and response to children's speaking and writing.

100% continuous assessment by coursework: range of assessment tasks will be used which may include the following: in-class presentations, participation in online discussion tasks and a reflective assignment

which requires students to examine their own pedagogic content knowledge and its impact on their teaching practice.

---

## **Year 5**

### **BBED5322 Pedagogical Content Knowledge for Teaching English in Secondary School (6 credits)**

This course enables students to draw upon the subject-matter knowledge gained in the English Language and Linguistics Major to address the needs of students learning English as a second language in Hong Kong secondary schools. Through an exploration of structural, lexical, and functional approaches to language, students will develop skills in identifying the pronunciation, vocabulary, grammar and discourse demands of spoken and written texts and tasks in the lower and senior secondary English language curriculum. Students will examine effective pedagogies for enabling the processes of noticing, hypothesizing and restructuring of pronunciation, vocabulary, grammar, and for developing learners' abilities to critically analyze language in use and explore language independently. The course also focuses on the teaching and learning of written and spoken discourse and texts, relevant to adolescent learners and the secondary English language curriculum, and the evaluation and response to students' speaking and writing.

100% continuous assessment by coursework: range of assessment tasks will be used which may include the following: in-class presentations, participation in online discussion tasks and a reflective assignment which requires students to examine their own pedagogic content knowledge and its impact on their teaching practice.

---

### **Educational Studies Core Courses (18 credits)**

The two courses, BBED3002 and BBED4003, aim to enable students to understand and support students at individual level in primary and secondary school contexts. The course content covers topics mainly related to students with diverse learning needs (1), and guidance and counselling (2).

---

## **Year 3**

### **BBED3002 Learning Support 1 - Catering for Diverse Learning Needs (6 credits)**

While there are numerous benefits, inclusive schools face many challenges in educating students with diverse learning needs. This focus on inclusive education is an international concern and one that the Hong Kong government has embraced since 1997. Particular emphasis is given to supporting students with different types of disabilities, such as specific learning difficulties, intellectual disabilities, autism spectrum disorder, and ADHD in the context of inclusive schools. The impact of disability on learning will also be examined, and attention will be given to teachers' pedagogical knowledge and classroom management skills in response to students' diverse learning needs in the classroom. Collaborative teamwork with other professionals and family will be emphasized as these contribute to successful student outcomes. Current issues and trends in special education within both international and Hong Kong contexts will be explored.

100% continuous assessment by coursework: assessment tasks will include issue-based problem-solving exercises and an issue paper on each student's topic of interest.

---

## **Year 4**

### **BBED4001 Social and Philosophical Foundations of Education (6 credits)**

This course examines educational problems from the perspectives of classic and contemporary figures in sociology and philosophy. These two disciplines play complementary roles in clarifying both the

conceptual foundations and the empirical assumptions that serve as the foundation of much debate over the means and ends of education. Students will engage deeply with major texts in these two fields and apply them to problems currently facing educators in Hong Kong and the rest of the world.

100% continuous assessment by coursework: the course would employ a range of teaching and learning activities, and assessment tasks. They include analysis of selected issues, student presentation, and/or discussion in class and e-forum.

---

**BBED4003 Learning Support 2 - Understanding and Guiding Whole-Person Development**  
(6 credits)

This course reviews major theories, concepts and research on child and adolescent development and behaviour, and examines ways of guiding, counselling and supporting them in their whole-person development in school settings. The course will explore: (i) major theories of child and adolescent development; (ii) the interdependency of different aspects of development, i.e., physical, cognitive, social-emotional, and peer relationships; (iii) basic concepts and strategies in developmental, preventive and remedial guidance; (iv) the roles of teachers in guidance and counselling; (v) knowledge and strategies in supporting students with mental health issues; and (vi) guiding students on career and life planning.

100% continuous assessment by coursework. The assessment tasks will include issue-based problem-solving exercises and a reflective essay on a self-selected topic which is relevant to the course.

---

**Educational Studies Elective Courses** (6 credits)

---

**Year 5**

Candidates are required to complete not fewer than 6 credits from the courses listed below in Year five. Some of the courses listed below may not be offered every year.

---

**BBED5021 Professional Ethics in Teaching** (6 credits)

This elective will enable participants to explore a range of ethical issues which confront them as teachers in teaching, assessment, and evaluation practice. It will draw on ethical theories and professional codes of conduct to enable them to develop an understanding of their professional responsibilities as teachers and identify effective strategies for dealing appropriately with commonly occurring ethical dilemmas.

100% continuous assessment by coursework: the course would employ a range of teaching and learning activities, and assessment tasks. They include analysis of selected issues, student presentation, and/or discussion in class and e-forum.

---

**BBED5025 Policy, Improvement, and Leadership in Schools** (6 credits)

This course will investigate the themes of policy, improvement, and leadership in schools (PILS). Students will examine the roles of teachers and administrators in leadership and in the interpretation and enactment of school reform and school improvement policies. Students will also examine the school- and system-level factors necessary for improvement to take place. The course will utilize cases, theory, and empirical research that take on these themes, within and beyond in Hong Kong. With a focus on underserved student populations, PILS equips teachers with a deep understanding of how teachers and teaching are situated in broader aims of improving educational opportunity.

100% continuous assessment by coursework.

---

**BBED5026 Diversity, Culture, and Justice in Education** (6 credits)

This course introduces students to asset and equity based frameworks for teaching with social justice as an aim. Students will reflect on their beliefs regarding diversity and culture, and explore their identifications and experiences in relation to categories including gender, socio-economic status, ethnicity, ability/disability, and LGBTI status. Theoretical frameworks that challenge deficit views of minoritized and marginalized communities will be explored, so that students can instead see diversity and culture as resources for reshaping the following: curriculum and pedagogy, interactions with students and families, and teachers' identities. Possible challenges and dilemmas in adopting such frameworks will be discussed.

100% continuous assessment by coursework.

---

### **BBED5027 Education for Sustainable Development: Schools as Community Centers (6 credits)**

Drawing inspiration from UN Sustainable Development Goals, this course will examine the role of schools to achieve sustainability in local contexts: Education for Sustainable Development (ESD). Students will re-evaluate the current model of development, while envisioning new models of development that sustain not only economy but also cultural diversity, social equality, and natural environment. Students will be invited to examine the relationship between schools and communities. Attention will then be paid on how schools could introduce and implement programmes and projects that cultivate the knowledge, skills and values essential for realizing the goal of sustainable community development. Students will also deliberate on how the vision of ESD could be integrated into their professional identity.

100% continuous assessment by coursework.

---

### **External Experience (6 credits)**

---

#### **BBED2521 External Experience – English (6 credits)**

Students travel outside Hong Kong to a place where English is the mother tongue, for a mixture of courses, language immersion, cultural orientation and experience; or the equivalent.

100% continuous assessment by coursework: students will be assessed through a variety of tasks set by the host institutions including texts or analyses, essays, projects and presentations.

---

### **Community-based Professional Practicum (6 credits)**

---

Recognising that learning and experience are inextricably connected, all incoming double degree UG students from 2019-20 are required to successfully fulfill the requirements of at least one Experiential Learning activity through a Community-based Professional Practicum (CPP) project before the start of their fourth year. CPP is based on the premise that teaching and learning cannot only be restricted to classroom settings and teachers-to-be need to critically engage with social and global issues that impact on education including inequality, culture, history, and civic mindedness. All the CPP projects offered each year are aimed at enhancing student teachers' understanding of real-world environments, expanding their capacity to integrate theory and practice and broadening their local and global outlook.

The settings for our CPP projects may be local (Hong Kong), overseas and on the Mainland. All are aimed at pushing our students out of their comfort zones and enabling them to foster skills and values that are relevant to a career in education. These include transferrable skills like creativity, innovation, time management, communication and collaboration, problem solving, critical thinking and leadership. Nearly all our CPP projects include carefully organized input sessions and are taught by colleagues from across the Faculty. Each contains an important reflective component as reflective practice is at the heart of good teaching and learning. Most CPP projects are open to students from different disciplines to foster cross-disciplinary collaboration.

Students are required to undertake 6 credits from a list of education related experiential learning courses (or CPP projects) offered by the Faculty of Education before the start of Year 4. The courses listed below may not necessarily be offered every year, and the number and nature of courses in this pool may change. Other community-based learning opportunities may be disseminated throughout the year by the Faculty Experiential Learning team.

At The University of Hong Kong, we are committed to recognize and develop a number of Communication-intensive (CI) courses (<https://cics.hku.hk/>) that explicitly develop students' communication-related knowledge (understanding of communication as it relates to human interaction), skills (skills in communicating effectively with others, using language and/or other means) and attributes (the attributes of effective communicators). A number of course leaders have already started the journey towards attaining the CI certification.

BBED6787	Ocean Park Experiential Learning Project (6 credits)
BBED6790	Developing Resilient Student Teachers by Nurturing Resilience in Vulnerable Groups in Cambodia (6 credits)
BBED6792	Sustainable Development in Tibet (6 credits)
BBED6794	Fostering 4Cs (Critical Thinking, Creativity, Communication and Collaboration skills) through Engaging STEM/STEAM-related EL Activities (6 credits)
BBED6795	Exploring the Past, Present, and Future of Myanmar (6 credits)
BBED6796	Cultural Heritage and Information in the Field (6 credits)
BBED6797	Youth Mentoring for Social Justice and Inclusion (6 credits)
BBED6798	Design Thinking in Action (6 credits)
BBED6800	CantoGather: Teaching Lower Primary Chinese-as-a-Second-Language Learners Chinese (6 credits)
BBED6801	Nurturing gifted individuals (6 credits)
CAES2001	Nurturing Global Leaders (12 credits)*
CAES2002	Online Digital Storytelling in English (6 credits)

*\* This course can be counted as fulfilling the Community-based Professional Practicum (CPP) requirement and also a 6-credit free elective.*

### **BBED6787 Ocean Park Experiential Learning Project (6 credits)**

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

The course will offer students the chance to undertake experiential learning through extended collaboration with Ocean Park, Hong Kong. By engaging in this project, students will expand their understanding and practice as future education professionals beyond the formal classroom and school context. Students will be assigned to work in groups to a) carry out an observation of guests' interests through needs analysis & b) design pop-up narration offerings for visitors to the Park with a goal of enhancing the in-park guests' experience. The final exhibits may be placed on display for visitors and may be used by Ocean Park staff after the course finishes.

Students will have the chance to work closely with Ocean Park staff from their Discovery and Education team and to contribute their knowledge to the Park's focus on promoting conservation and awareness about endangered species to local school children and visitors (from HK as well as overseas and China). All students who select this course will be mentored by the Ocean Park's Education team and closely supervised under the guidance of faculty members. Students' performance in the course will be evaluated through a variety of means including reports from Ocean Park staff, online reflections, and a multi-media presentation at the end of the project.

100% continuous assessment by coursework. Students from all disciplines and programmes may apply but must be able to commit to all meetings and classes.

**BBED6790 Developing Resilient Student Teachers by Nurturing Resilience in Vulnerable Groups in Cambodia** (6 credits)

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

The course sets out a sustainable relationship with a rural school in Cambodia which houses children impacted by trafficking and poverty. The focus will be on co-constructing a curriculum on resilience for the children there with the teachers and volunteers of the school by adopting a 'train the trainers' model of development. It is found that teachers' resilience enhances job satisfaction and teaching effectiveness, and at the same time, allows teachers to nurture resilience in their own students to cope with the challenges of the 21<sup>st</sup> century. The current program highlights one of the key approaches that contextualizes the knowledge of teachers' resilience in working with the vulnerable group and carefully incorporates Kolb's (2015) learning cycle into the program. Student teachers learn to integrate academic theories and actively experiment through continuous observation, trial-and-error and reflection.

Students will attend classes in the second semester and work in teams to design a curriculum on resilience and implement it during summer in Cambodia.

**BBED6792 Sustainable Development in Tibet** (6 credits)

[This is a certified Communication-intensive (CI) Course which meets all of the requirements endorsed by HKU's Senate]

Tibet has developed rocketing economic growth in the past two decades at the expenses of the ecosystem and environment. Set against this backdrop, this study tour aims to bridge this gap by creating the platform for our student educators to learn about the socio-economic landscapes of Tibet and to analyze its challenges of turning around and sustaining its development. Our student educators will first learn about the theoretical understanding of sustainable development and its relationship to the socio-economic landscapes of Tibet. Then they will work in cross-disciplinary teams to put their knowledge into practice – putting forward their ideas of raising social awareness and calling for behavioral changes with the consideration of local culture and limitations in the format of 'TED talk' videos and sharing at Tibet University. Through the learning process of knowing about the culture, self and others, students will develop an increased intercultural sensitivity as local and global citizens.

The course together with all input sessions will be organized between June to July and students are required to have full attendance throughout the course.

### **BBED6795 Exploring the Past, Present, and Future of Myanmar (6 credits)**

Myanmar is a changing country, situated between India and China, with a complex and interesting past. Through a partnership with the China Exploration & Research Society (CERS), this course sets out to introduce students to the past, present, and future of Myanmar through direct engagement with its landscapes, cultural heritage, and people. Students will learn the basics of how archaeological theories and methods enable the study of past societies, and they will gain hands-on experience with digital humanities techniques for documenting ancient remains. This allows us to investigate past uses of spaces and objects in the organization and performance of law and politics, a perspective that can help contextualize the present. Students will also observe and participate in traditional crafts production to learn about daily life and economics in the villages of Myanmar. This experience foregrounds a rights-based comparison of labor conditions and gender dynamics in the present with the past, which we investigate through the objects of the archaeological record. Throughout this interdisciplinary class, students will engage with and interview community members, community leaders, and other stakeholders. Students will consider the role of the law in preserving culture, protecting the environment, and supporting economic opportunities in the community. The class will explore two very different environmental zones of the country that highlight the relationships between landscape and society: the flood plain of the Irrawaddy River, explored while living on a boat, and the resource-rich highlands around Inle Lake. The class culminates with an analysis of the ethics surrounding the roles tourism plays within the modern state of Myanmar and Myanmar's role within the international law framework.

### **BBED6796 Cultural Heritage and Information in the Field (6 credits)**

Archaeologists study past cultures through the careful recording of the surveyed or excavated remains of ancient architecture and artifacts. In this class, students will travel to Armenia to participate in summer fieldwork, where they will be exposed to archaeological theories and methods, the digital humanities, and information management in the field. Students will help with digital data collection and experiment with cutting-edge technology such as drones, 3d scanning, cloud computing, and high-precision GPS. This work is contextualized by a critical evaluation of current issues and ethics in cultural heritage and data sharing. Discussion will also focus on teaching the past and engaging the public in cultural heritage and tourism. Several fieldtrips to local sites will provide broad familiarity with the past in Armenia and the Near East. Pre-trip meetings prepare students for the field and a flexible summer program should enable students with varied schedules to attend.

### **BBED6797 Youth Mentoring for Social Justice and Inclusion (6 credits)**

This course develops the knowledge, skills, beliefs and awareness needed to be an effective youth mentor and advocate of disadvantaged youth, with the aim of addressing social and educational inequality. The course will enhance students' understandings of the social, economic, cultural and political forces influencing the educational experiences of youth. It will also develop their self-efficacy as an agent of social change through an exploration of critical, inclusive pedagogies. The course integrates regular university-based interactive seminars with an experiential learning component in which each participant mentors a secondary learner, supporting and advocating for the learner academically and socially on a regular basis across two semesters. The course readings include literary, popular and academic texts to enable youth mentors' reflection upon their mentoring relationships and processes, their own social and

ideological positions, and their developing identities as community youth mentors. Participants will receive continuous support and guidance from the course tutor and from peers.

**BBED6798 Design Thinking in Action (6 credits)**

65% of children studying primary schools today will ultimately work in jobs that currently have not yet existed (WEF report 2016). The complex and unpredictable future has created challenges for nurturing student educators for the 21<sup>st</sup> century. Collaborate with the PolyU Jockey Club ‘Operation SoInno’, this course aims to nurture social innovative and reflective student educators who can find solutions to real-world problems and generate innovative ideas to create a better future. Our student educators will first learn about the theoretical underpinnings of design thinking and the reflective learning cycles in experiential education. Then they will work in cross-disciplinary teams to put their knowledge into practice – facilitating secondary school students’ learning process in subject-based design thinking and helping them to reflect upon themselves as active learners. Student educators will integrate social innovation and humanity through the lens of design thinking and develop important 21<sup>st</sup> century skills.

**BBED6800 CantoGather: Teaching Lower Primary Chinese-as-a-Second-Language Learners Chinese (6 credits)**

While Hong Kong is seen as a “melting pot” of various cultures, social integration remains unsatisfactory. In a study jointly conducted by the Hong Kong Council of Social Service and the Hong Kong Christian Service in 2016, only 64.7% of the surveyed South Asians living in Hong Kong were able to understand spoken Cantonese and 46.4% were able to speak it, while around 9 out of 10 South Asians were unable to read and write Chinese. Even though Chinese is a part of the teaching curriculum in mainstream schools, Chinese-as-a-second-language learners still find it difficult to improve their Chinese language proficiency due to various factors, including limited language exposure and a lack of teaching materials even in schools where they are often designed for teaching Chinese as a second language, thereby matching the mainstream syllabus.

CantoGather aims to empower our non-Chinese neighbours with Cantonese so that they might be better able to integrate into their local communities and step up the social ladder, and in the process promote cultural understanding between tutees and tutors. In this course, students will be teaching a class of 15-20 lower primary NCS students Cantonese through a one-to-one basis each week over 10 weeks. Students will also be modifying the provided activity-based tutoring plans and materials according to the children’s learning needs. At the end of the course, students will produce a lesson plan of their own which will be used by future volunteers. Through this course, students will be able to apply theory into practice and refine their professional skills, while understanding more about local issues and contributing to social immersion and racial integration in Hong Kong.

**BBED6801 Nurturing gifted individuals (6 credits)**

The growing significance of psychosocial factors in talent development has highlighted the importance of addressing the social and emotional needs of gifted individuals in gifted education. Collaborating with our own CAISE (Centre for Advancement in Inclusive and Special Education), this course aims to develop student educators’ awareness on the unique social and emotional needs of gifted individuals and competence to respond to such needs. Student educators will first learn about the social and emotional needs of gifted individuals. Then they will work in cross-disciplinary teams to design and conduct workshops to strengthen the development of this important aspect among gifted individuals at

primary school level as well as their parents. On-going feedback and reflection will be provided and facilitated.

### **CAES2001 Nurturing Global Leaders (12 credits)**

*[This course can be counted as fulfilling the Community-based Professional Practicum (CPP) requirement and also a 6-credit free elective.]*

The NGL course provides students with an immersive experience teaching English language and communication skills to marginalized youths in South East Asia for six weeks. Students will reflect on effective English learning strategies and operationalize these into teaching materials and methodologies. Through this unique cultural immersion, participants will gain appreciation for the role that English plays in promoting social and global mobility as they leverage their own language skills and understanding to work in teams and share their knowledge with marginalized youths at community partner organizations.

The NGL programme will consist of two weeks of training in Hong Kong followed by six weeks of internship teaching English to marginalized youths at community partner organizations.

### **CAES2002 Online Digital Storytelling in English (6 credits)**

This course is a unique new approach to experiential learning, giving HKU students an opportunity to support the learning needs of marginalized youth in the developing world. Through this experience, students will improve their own communication skills while empowering others through personal narratives.

Students will learn about a unique seven-stage process to develop personal narratives in the form of Digital Stories. Through this process they will gain a deeper understanding both of the powerful potential impact of storytelling as well as develop a greater understanding of how to integrate different types of media to communicate effectively. As an added dimension, the course is taught entirely online to facilitate personal engagement between students at HKU and learners in the developing world. Both HKU students and the youth they teach will benefit from the opportunity to improve their online communication skills. By working with a range of different online genres students will learn new communication skills (e.g. script writing, using your voice effectively, visual literacy, etc.) as well as technical skills (e.g. audio and video capture techniques, audio and video editing, generating graphics, media management, etc.)

In the first part of the semester students complete a module in which they will generate their own personal narrative in the format of a digital story. Based on this experience, they will then develop relevant online learning support materials and deliver an online digital storytelling workshop for marginalized youth.

### **Professional Practicum (24 credits)**

---

Professional Practicum is a professional requirement that enables students to develop professional teaching competencies within the school environment. Students are required to integrate theory and practice in four domains: Learning and Teaching, Student Development, School Development and Professional Community. Through two years of *Professional Practicum*, students commit themselves to six core professional values: belief that all students can learn, care for students, respect for diversity,

commitment and dedication to the profession, collaboration, sharing and team spirit, passion for continuous learning and excellence.

Because this component is conducted in schools and involves direct learning relationships with school students, the student-teachers must comply with the following professional requirements: Student teachers shall conduct themselves professionally during their studies and towards staff and students in schools or other institutions. Student-teachers who exhibit behaviour deemed by the Faculty of Education to be threatening or harmful to school children, teachers, fellow students, or to schools and other institutions participating in the programme, may not be permitted to take, or may be withdrawn from the *Professional Practicum* courses, and hence will not be able to satisfy the programme's professional requirements.

The core aspects of student-teachers' performance in the practicum that will be assessed include but are not limited to the following:

- planning for effective teaching and learning
  - knowledge of the target language and its acquisition
  - teaching strategies which foster and motivate student learning and meet diverse student needs
  - managing learning and interaction in the classroom
- professional orientation

### **BBED6715 Teaching Chinese Grammar** (6 credits)

Pedagogical grammar is different from theoretical grammar. Theoretical grammar is descriptive and focuses on constructing and understanding the underlying grammatical system of a native speaker. Pedagogical grammar is prescriptive, applied grammar and focuses on solving the problem of grammatical usage for the purposes of second language teaching and acquisition. The rules of pedagogical grammar cannot be directly derived from theoretical grammar but must be obtained through analysis of a large number of acquired cases in learners of Chinese.

This course will discuss how second language learners acquire Chinese grammar and will train students in the basic methods of analysis of Chinese pedagogical grammar, including analytical procedures and operations. Through the analysis of a large number of learners' grammatical errors, this course uncovers the order in which second language learners acquire Chinese grammar. From the perspective of second language pedagogy, this course will show the optimal teaching methods for difficult areas of Chinese grammar, such as the perfective marker *le* (了), the *bǎ* (disposal) construction (把字句), the prepositions *xiàng* (向), *cháo* (朝) and *wǎng* (往), the adverbs *dōu* (都) and *quán* (全), *gāngcái* (剛才), *gang* (剛) and *gānggāng* (剛剛), the structure that represents emphasis *lián* (連).....*yě* (也)/*dōu* (都), and compound directional complements (複合趨向補語), etc. This course is not a grammar theory course, but a course focusing on training in the analysis of applied pedagogical grammar to benefit the students' future professional career (such as the language acquisition course in the IB Chinese teaching as a second language).

### **Pedagogy Elective Courses for Candidates Majoring in English Language and Linguistics**

---

Pedagogy elective courses offer a range of special topics relevant to primary English and/or secondary English language teaching, and teaching and learning in primary and/or secondary school. The courses are designed to enhance and extend students' learning in the Pedagogy and Pedagogical Content Knowledge courses. Students are encouraged to undertake a range of Pedagogy Electives as free electives to meet their interests and teaching career aspirations.

Some of the following pedagogy electives will be offered in the relevant years and semesters.

---

### **BBED6721 Using Your Voice and Body Effectively in the Classroom** (6 credits)

The voice and body are both instruments and 'tools of the trade' which the teacher must use every day. In order to help students understand, engage with and enjoy language of all types, the teacher must be able to use his/her voice and body effectively. This elective is designed for prospective language teachers who would like to develop understandings and practical skills in the use of their voice and body in communicating meaningfully with young people in a school setting. Students will explore voice modulation and projection for various stages of a lesson, and for various teaching tasks and strategies. In addition, use of eye contact, facial expressions, gesture and physical proximity and movement to communicate with both young and adolescent learners will be examined. Students will discuss the importance of the voice and body in learning in relation to theoretical perspectives such as those put forward by Gardner (1999). Ways of addressing the physical demands of full time classroom teaching, such as voice care, will also be addressed.

100% continuous assessment by coursework: a range of assessment tasks will be used including session-based reading aloud presentations, a reflection on the preparation and reading aloud process and critical analyses of challenging classroom scenarios.

---

**BBED6722 Using Drama in Language Learning (6 credits)**

Students will critically engage with and develop an awareness of contemporary theoretical perspectives on and practice in drama in language learning. Course sessions will integrate theory with practice and students will be led through drama sequences by the tutor and then invited to consider and discuss how such techniques can be applied to support and enhance language learning in the school context. Students will also be expected to apply their understanding of the course readings in these sequences and discussions. The module also addresses the role of drama in the development of the generic skills outlined in the Hong Kong Education Bureau's *English Curriculum and Assessment Guide (2007)* particularly collaboration, communication, creativity, critical thinking and problem-solving skills. How drama can be implemented in primary and secondary school settings to enhance and extend students' literacy skills will be explored. This module is suitable for prospective teachers who will work in both primary and secondary school settings.

100% continuous assessment by coursework: a range of assessment tasks will be used including a reflective journal in which students critically reflect on the pedagogical impact of drama techniques in language teaching and learning and an essay.

**BBED6723 Mistake Management: Handling Error Correction and Giving Quality Feedback (6 credits)**

This module aims at heightening participants' awareness and deepening their understanding of the impact and role of error-correction and feedback in managing learners' language problems in both speaking and writing tasks in English lessons and in classes conducted in an English-medium setting. Through critically evaluating different approaches to and strategy use in the treatment of written and spoken mistakes/errors, participants are expected to widen their repertoire of strategies and techniques in dealing with language problems, enhance their mistake-management skills, and learn how good mistake-management – the effective use of marking strategies, error-correction techniques, feedback and task-design – maximizes learner autonomy and trains learners to be better 'managers' of their own language production. Upon completion of the course, participants should have strengthened their confidence in managing learners' mistakes/errors and established a set of guiding principles to help them make informed decisions when correcting these mistakes/errors in different teaching/learning contexts in a tactful and appropriate, non-judgmental and sensitive, positive and constructive manner.

100% continuous assessment by coursework: a range of assessment tasks will be used such as in-class presentations, evaluation of classroom error-correction tasks, and a reflective assignment on one's feedback-giving strategies.

**BBED6724 Language Learning and Interaction (6 credits)**

In this course students will explore the social nature of language learning by focusing on the central role of teacher language and classroom interaction in managing and supporting language learning. Students will learn about the various functions of teacher talk and the role of teacher language not only in managing students' learning but also as the main source of language input in the primary and secondary English language classrooms. They will learn about the need for teachers to monitor, modify and support their language to meet the needs of their learners and to create space for learning through interaction. Students will be involved in analyzing samples of classroom discourse, focusing on teacher and student language and interactions and their impact on student learning.

100% continuous assessment by coursework: a range of assessment tasks will be included such as teaching demonstrations, online discussion forums and a critical analysis of classroom interaction.

**BBED6725 Digital Literacies in the Language Curriculum (6 credits)**

Globalisation and the proliferation of mass media, popular culture and digital technologies have had a profound impact on the nature of texts and the uses of literacy in our everyday lives. Educators can no longer consider literacy as simply the decoding and comprehension of written script but must help learners critically engage with new, multimodal forms of texts and emerging textual practices, and understand how to navigate the sociocultural and sociopolitical challenges of online and networked communication. In this course, students explore the concept and practices of digital literacies and their implications for language teaching and learning in Hong Kong schools. The course will examine core principles and theories of digital and media literacies, multimodal text creation and critical social analyses of digital texts and practices. Participants will also examine, critique and adapt digital tools as teaching resources for language education in Hong Kong primary and/or secondary classrooms. 100% continuous assessment by coursework.

### **BBED6726 Teaching Literature and Language Arts (6 credits)**

This course aims to develop an awareness and appreciation of the role of literature in the English Language/Language Arts curriculum and the issues related to using literary texts and other creative texts in the language classroom. It aims to provide students with knowledge of different literary genres and literary techniques and basic methodological strategies for teaching both literature and language through literature. Topics covered include the following: Why teach literature? Why use literary texts? Literature for study versus literature as a resource; Literature and the curriculum; Literature and experience; teaching poetry and using poetry with language learners; teaching and using prose texts; teaching film and how to use film in the classroom; using comics and fairy stories creatively, and the use of popular culture in the language classroom. The course aims at highlighting the relevance of literature and language arts in everyday life and to promote interest in the different aspects covered on the course.

100% continuous assessment by coursework: a range of teaching and learning activities and assessment tasks will be used. These may include in-class group presentations of teaching resources, formative literary portfolios and a lesson planning assignment.

### **BBED6727 Teaching and Learning in Small Classes (6 credits)**

It has been argued that the principles of effective teaching are the same in all classes, regardless of size or subject (Galton and Pell, 2010). This course will examine the issue of whether small classes can, and do, make a difference to the teaching and learning processes in those classes. Drawing on local and international studies, this course will raise students' awareness of how and why small class size can provide teachers with the opportunities to maximize learning opportunities for their students. This course also sets out to introduce and highlight the various components of classroom language that can lead to a wider range of opportunities for learning in small classes. These components include effective teacher-talk, eliciting, giving feedback, presenting, giving instructions, explanations etc. The course will mainly include analysis of classroom discourse and episodes in ELT lessons but will also focus on the presentation of subject content in non-English language lessons. Demonstrations and microteaching will be employed for students to understand and develop the effective use of interaction in the classroom. 100% continuous assessment by coursework: a range of teaching and learning activities and assessment tasks will be used. These may include peer appraisal of microteaching presentations, a reflective journal kept during teaching practicum and a reflective assignment where students critique their own classroom language and pedagogy in lessons during teaching practicum.

### **BBED6728 Children's Literature and Literacies (6 credits)**

Whether in the context of first or second language learning, Children's Literature is an integral element of literacy education for young learners. This elective will introduce students to the corpus of children's literature and enable students to consider how such texts contribute to literacy and language learning. This corpus includes a variety of literary genres including rhymes, poetry, picture books, post-modern picture books, traditional tales and contemporary melded tales, screen based literature and e-books.

These will be considered from historical, socio-cultural and post-structural perspectives. Multicultural literature, including Hong Kong and Chinese texts (in English) for children will also be examined. The approaches to learning in this Elective will include consideration of the sort of literacies which are necessary for 21<sup>st</sup> century life as well as discussion of children's differences, interests and skills, and the significance this has for their learning. How teachers may move from using skill-oriented texts to authentic literature and literature-based whole language approaches in their own professional contexts will also be considered.

100% continuous assessment by coursework: a range of assessment tasks will be used including a reading journal, a lesson planning assignment based on a literary text for children and a rationale discussing the lesson plan.

### **BBED6729 Language Across the Curriculum (6 credits)**

This course introduces the principles and practice of Language Across the Curriculum (LAC) with school-based examples under the fine-tuned medium of instruction policy in Hong Kong. Specifically it aims to illustrate how the English teacher can collaborate with content subject teachers to support content teaching in English in a school. The intended learning outcomes of the course include:

1. describe the principles and practice of LAC in a school-based context,
2. identify and describe the different kinds of academic genres specific to different school disciplines and the linguistic knowledge and skills (e.g. academic functions and forms) required of students to perform the learning tasks in these disciplines,
3. apply the above knowledge to design and develop language support materials to assist teachers and students to teach and learn content subjects in English,
4. describe and apply different pedagogical scaffolding approaches in different contexts for achieving LAC,
5. design school-based initiatives for implementing and evaluating LAC

100% continuous assessment by coursework: to achieve the above learning outcomes, a range of teaching and learning activities and assessment tasks will be used. These include academic text analysis, lesson task design, lesson video analysis and LAC implementation design.

### **BBED6730 Becoming a Critically Reflective Practitioner (6 credits)**

In this course, students will examine notions of critical reflection and the critically reflective practitioner. This will involve seeing individual lessons, curriculum units, and ongoing professional development, in terms of iterative cycles of planning, acting, and reflecting. Within this context, students will recognize and reflect on issues of power and position entailed by the institutional and political situation of education as a social practice and consider the ways that societal issues and changes impact on education. Students will examine the nature and scope of action research as an appropriate and invaluable tool for the critically reflective practitioner. Students will also examine the ways in which their work as teachers intersects with that of other education professionals and consider strategies to establish and maintain positive and productive working relationships with parents and families.

100% continuous assessment by coursework: a range of teaching and learning activities and assessment tasks will be used. These include critical analysis of teaching materials, an action research proposal presentation and a critically reflective essay.

### **Year 5**

### **BBED6782 Dissertation (12 credits)**

Research is central to developing knowledge and impacting upon practice in the field of education. This elective enables Education students to undertake prolonged engagement with an approved research topic in education under the supervision of a staff member from the Faculty of Education. The elective aims to develop a rich and interactive research community amongst Education majors and Faculty. The course explores the intersections between research, teaching and learning, and introduces students to research methods and strategies including identifying issues and puzzles in education, synthesising and critiquing literature, research design, data collection, data analysis, and research writing.

The elective is held across three semesters: Semester 2 of the fourth year of study (Year 4), and Semesters 1 and 2 of the fifth year of study (Year 5). In Semester 2 of Year 4, students will participate in a series of interactive workshops that engage students in a research topic of their own choosing and interest, and explores various research objectives, methods and strategies relevant to their topic. Students will receive hands on practice in collecting and analyzing data. At the end of the semester, students will develop and present their research proposal. In Year 5, students will work closely with their supervisor in refining their proposal, collecting and analyzing data, and writing the research report (dissertation). Students will receive additional ongoing support from course teachers. Students will present their project findings at an undergraduate research conference at the end of Semester Two.

100% continuous assessment by coursework: including research proposal, presentations, and final dissertation.
