# Scenarios for Major & Minor Options

## Remarks:

1. Students are allowed to choose one of the following disciplines as their first major.
  - China Studies (Social Sciences Stream)
  - Geography
  - Politics and Public Administration
  - Psychology
  - Social Policy and Social Development
  - Sociology
2. University requirements include a 6-credit of English in the Discipline course, two 6-credit courses in Common Core Curriculum in two different Areas of Inquiry, and a non-credit-bearing online course UG5E1001.
3. Psychology major students without PSYC1001 exemption are required to take **72 credits** for the disciplinary major, and are only required to take **30 credits** of free electives at advanced level to fulfil the graduation requirements.

# Scenarios for Major & Minor Options

4. Psychology students who plan to conduct independent empirical research in the final year are advised to take **PSYC1004** in Semester 1 and **PSYC2060** in Semester 2 in Year 3.
5. Students opting for a minor under Faculty of Social Sciences (FoSS) are required to make up the **6-credit** introductory course by taking a **6-credit** advanced disciplinary elective of your declared minor in lieu (i.e., a total of 36 credits advanced courses).
6. Students opting for a minor under non-FoSS are required to take courses based on the individual programme requirements. As a result, the credits of the introductory course(s) requested by your minor programme should be counted on top of **120 credits**. In other words, students may need to take more than **120 credits** to fulfil both of your disciplinary major and minor programme requirements, but not more than 144 credits.
